Background Information:

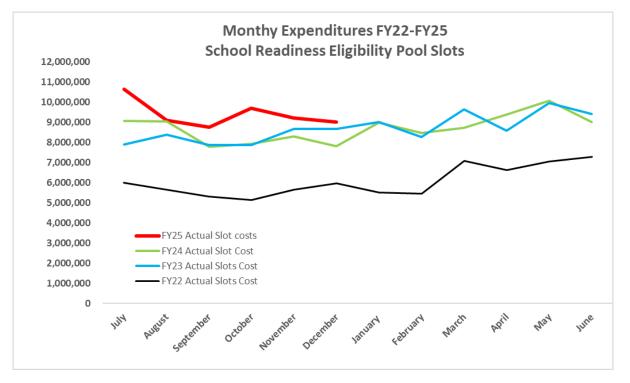

The Interim Financial Statements for the six-month period ending December 31, 2024, are attached for review. Financial Highlights through the month of December 2024 are as follows:

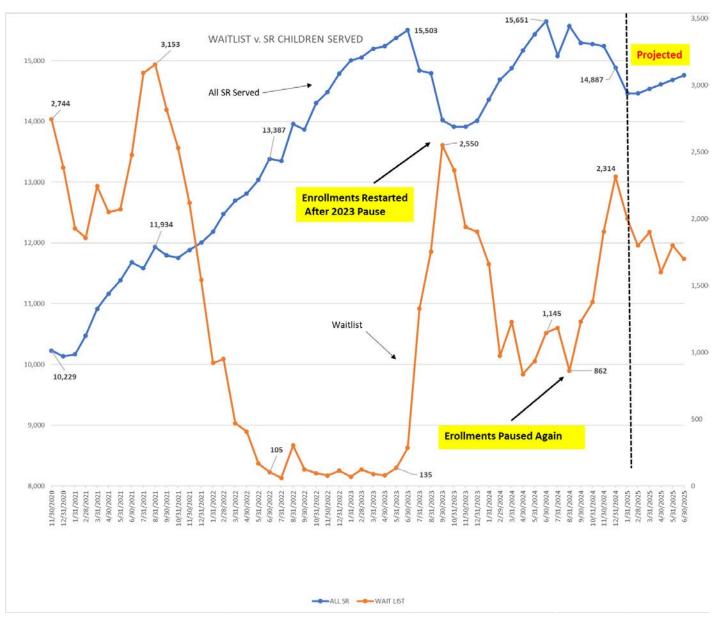

1. School Readiness

The impact of a School Readiness enrollment pause mandated by DEL in November began to emerge in December with a 2% decrease in reimbursement expenditures and slot counts. The number of children served fell by approximately 350 compared to the previous month and expenditures decreased by approximately \$200,000. In the first six months of the fiscal year School Readiness expenditures for slots had been at historic high levels after 4 years of expanded funding and open enrollment from the waitlist, but DEL instructed all Coalitions to pause enrollment if we projected a deficit trajectory even though additional funding allocations were still in the works

Fortunately, DEL announced in January 2025 that Broward would receive an additional allocation in early February from a \$40 million Statewide pool of funding that was held in reserve by the legislature. The additional \$6 million is enough to eliminate our current projected deficit for FY25. DEL also announced that they will start considering requests to transfer funding among Coalitions in early February, so that Coalitions that are projecting a surplus can make their unused funds available to Coalitions in need.

With our currently projected deficit eliminated through this new funding allocation, staff will begin to call families on the waitlist at a modest pace and we will submit a request to receive between \$4 and \$6 million in surplus funds from other Coalitions to try to slow down the momentum of the enrollment decline that we still expect to see in the next several months following our latest 3 month pause. If the request is not successful, we still have the option of pausing enrollments again in the 4th Quarter and using local funding shifts to ensure that School Readiness funding breaks even by the end of the fiscal year on June 30, 2025. See the charts below and the attached Utilization Project Report for additional detail.

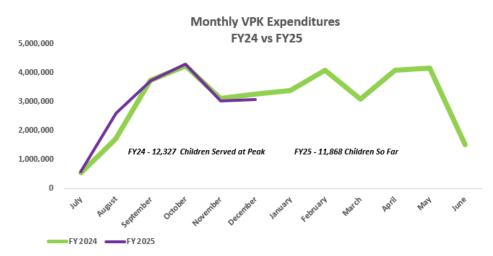

Project Enrollment Trajectory Through FY25 Year End

2. VPK

VPK services typically ramp up during the first quarter of the fiscal year as the regular school year begins in August. Attendance for school year services in FY25 is comparable to the prior year. Funding is allocated by DEL to match the actual need for services each year.

3. Vulnerable Populations Program

YTD Expenditures in the Children's Services Council funded Vulnerable Populations Program continued to come in 27% higher than the prior year because of a steady increase in referrals from CSC providers for services, a slower pace of transfers into SR for eligible families as waitlist enrollment has decreased and higher tiered reimbursement rates for child care centers as CLASS scores improve across the County. CSC increased annual funding for the program by \$824K starting in May 2024, but projections show that additional funding may be required to sustain the current pace. Staff plans to start calling children from the SR waitlist this month this may provide an opportunity to transfer eligible families in School Readiness funding, but the impact will only partially reduce the projected \$2 million deficit currently projected. Staff will discuss utilization management options with CSC for the remainder of the contract year through next September over the coming weeks.

Recommended Action:

Recommend the Board Approve December 2024 Interim Financial Statements, Pending Approval of an Annual Audit Performed by a Qualified Independent Certified Public Accountant.

| MEETING DATE: | January 28, 2025 |
| SUBJECT: | FY 2025 Budget Amendment #3 |
| FOR ACTION: | YES |
| RECOMMENDED ACTION: | Approve FY2025 Budget Amendment #3 |
| FINANCIAL IMPACT: | \$6,100,000 Net Increase to Revenue and Expense |

Background Information:

In June 2024, the Board approved a preliminary annual budget that reflected estimated revenues and expenditures pending receipt of grant award letters from funders. In September 2024 the Board approved Amendment #1 after the Division of Early Learning (DEL) issued some, but not all, of the expected notices of award for FY2025. In December 2024, the Board approved Amendment #2 after DEL issued new guidance for Coalitions regarding enrollment. In January 2025, DEL notified Coalitions that new funding allocations were pending. The annual budget has been amended to reflect this and other proposed changes.

Current Status:

Key changes and updates Included in FY2025 Budget Amendment #3 are as follows:

- 1. \$6,100,000 Increase to Projected School Readiness (SR) Slot Pool funding allocations for FY25.
 - \$6,000,000 million increase to SR Base slots to be awarded in early February: The additional funds will eliminate the previously projected deficit in SR funding for FY25 but they will not be sufficient to cover the cost of any new enrollments from the waitlist in Broward. However, because the new allocation is coming so late in the fiscal year, some other Coalitions are now reporting that they will not be able to fully expend their portion of the allocation by year end, and Broward will have an opportunity to request that surplus funding be transferred in to allow us to dampen the effect of our recent enrollment pause. Broward will begin modest enrollments this month in anticipation of DEL confirming such transfers as early as February. Staff will monitor the situation and adjust the course as needed. See Interim Financials Action Statement for details on the enrollment and funding management plan.
 - \$100,000 to for SR Plus Program Slots through June 2025: In September 2024, DEL awarded Broward \$1,108,047 for the new SR Plus Program that provides transitional child care subsidies to families that reach SR income eligibility ceiling on a first come first served basis. Since Broward has very few families that are terminated due to income eligibility and also because the amounts of reimbursements available under the program are very low, uptake on the program has been low. As of December, Broward led the State with 25 children enrolled and total expenditures of \$12,526 over the first two months. At this pace, staff projects that we will spend only approximately \$100,000 (10%) of the \$1 million allocation this fiscal year. Since such low expenditures are a Statewide issue, DEL has requested that the legislature revert and re-appropriate the unused funds to support the program in FY2026.
 - \$337,442 in FY25 in realized cost savings through staff vacancies re-allocated child care slots. In order to maximize the number of children we can keep enrolled in the system despite our funding challenges, staff have not filled staff vacancies from natural turnover during the year. \$244,313 was previously approved during December under Amendment #2. With an additional \$337,442 in this Amendment #3,

the pause on hiring has generated a total of \$581,755 in cost savings that has been reallocated to child care slots.

2. DEL Proposal for FY26 Funding; The legislative session for FY26 funding will begin in March 2025. DEL has requested that the Governor reprise approximately \$120 million for FY26 that was appropriated in FY25 to fill various funding gaps. However, for this year DEL will recommend that the proviso language permit more flexibility for DEL to manage allocations Statewide to avoid the delays and uncertainty we are experiencing this year. DEL is also proposing a \$10 million expansion for the School Readiness funding pool and an \$8 million net increase to funds appropriated for quality rate differentials.

Staff are actively working with legislative contacts to educate about the need to right-size School Readiness base allocations to align with demonstrated need and distribute all funds appropriately across the Coalitions. AELC has made "right-sizing" the system one of its top legislative priorities.

3. \$2 Million Projected Shortfall for Vulnerable Populations Program FY25 Contract Year

• The CSC-funded Vulnerable Populations continues to see rising enrollment as referrals for service inch upward while transfers to School Readiness decline. At the current pace, staff project that FY25 contract year funding will fall short by approximately \$2 million by the September 30, 2025. Staff will work with the CSC to discuss options to remedy this problem in the coming weeks. See utilization projection report attached to the Interim Financial Statement Report for more detail.
